

# DESIGNED TO PERFORM

## GARDEN MACHINERY DESIGNED FOR EVERY GARDEN

Webb® eco 20V LITHIUM

40V LITHIUM 20V+20V Webb eco X-SERIES

# PERFORMANCE YOU CAN TRUST

**From the first cut of spring to the final clear-up of autumn, Webb products are designed to provide reliable performance and confidence throughout the gardening year**

## Every Garden is Different

From compact urban spaces and family lawns to larger gardens with vegetable plots, borders and mature planting, no two outdoor spaces are the same. What they do have in common is the need for reliable tools that make garden maintenance simpler, more efficient and more enjoyable.

At Webb, we design garden machinery around the jobs gardeners actually do. Whether it is mowing the lawn, trimming hedges, preparing soil, clearing leaves or cleaning patios, every product is developed to combine practical features, dependable performance and outstanding value.

Our range includes manual, electric, cordless and petrol solutions, giving gardeners the freedom to choose the right tool for their garden, their lifestyle and the way they prefer to work.

Backed by warranties and a nationwide network of stockists and service partners, Webb provides the confidence and support gardeners can rely on season after season.

3 YEAR MACHINE WARRANTY

Webb Machines are supported by a comprehensive **3-year domestic warranty** when registered.

2 YEAR BATTERY & CHARGER WARRANTY

Webb cordless batteries and chargers are covered by a **2-year domestic warranty** for added peace of mind.

A trusted network of **stockists** and **service partners** ready to help you get the most from your Webb products.

MADE FOR BRITISH GARDENS

Designed with British gardens in mind, Webb machinery delivers practical, dependable performance for everyday gardening tasks.

# READY FOR EVERY SEASON

## Whatever the season, Webb has the tools to help keep your garden looking its best

Gardening is a year-round activity, with every season bringing new opportunities and new challenges. From preparing lawns and borders in spring to maintaining outdoor spaces through summer, clearing leaves in autumn and caring for equipment during winter, every task plays a part in creating a garden to be proud of.

That is why Webb offers a comprehensive range of garden machinery designed to support gardeners throughout the entire gardening year. Whether you are cutting, trimming, cultivating, clearing or cleaning, Webb products are built to deliver reliable performance whenever you need them.

### SPRING
**Prepare & Grow**

As gardens come back to life, spring is the perfect time to prepare lawns, cultivate beds and encourage healthy new growth.

**RECOMMENDED PRODUCTS**

- √ Lawnmowers
- √ Scarifiers
- √ Tillers & Cultivators
- √ Line Trimmers

### SUMMER
**Maintain & Enjoy**

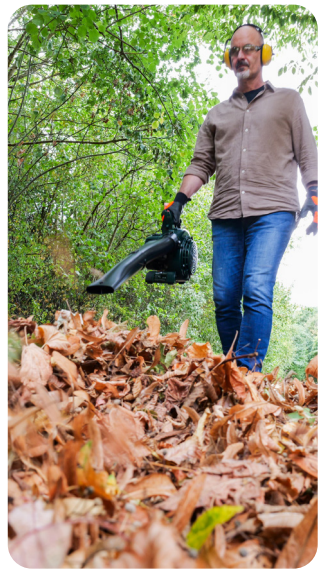

Keep lawns looking neat, hedges under control and outdoor spaces ready to enjoy throughout the busiest gardening season.

**RECOMMENDED PRODUCTS**

- √ Lawnmowers
- √ Line Trimmers
- √ Hedge Trimmers
- √ Mini Pruner
- √ Pressure Washers

### AUTUMN
**Clear & Protect**

Falling leaves and seasonal growth create new maintenance tasks. Autumn is the time to tidy, clear and prepare for the colder months ahead.

**RECOMMENDED PRODUCTS**

- √ Garden Blowers /Vacuums
- √ Hedge Trimmers
- √ Chainsaws & Pruners
- √ Shredders, Scarifiers

### WINTER
**Maintain & Prepare**

Winter is the ideal opportunity to maintain equipment, sharpen blades and prepare for another successful gardening season.

**RECOMMENDED FOCUS**

- √ Machine Maintenance
- √ Tool Storage
- √ Battery Care
- √ Garden Preparation

# ONE GARDEN.
# EVERY JOB COVERED

## Webb offers a complete range of garden machinery designed to support every stage of garden care

From creating perfectly striped lawns and maintaining hedges to preparing soil, clearing leaves and cleaning outdoor spaces, Webb provides practical solutions for every area of the garden...

### Lawn Care

Lawnmowers, Cylinder Mowers. Scarifiers, Lawn Rakers, Linetrimmers and Brushcutters

### Hedge & Pruning Care

Blowers/Vacuums, Wheelbarrows and Shredders

### Outdoor Cleaning

Pressure Washers

### Accessories & Parts

From Batteries, chains, blades and spark plugs to filters and oils, Webb stock everything needed for maintenance, repairs, and extending the life of your garden machinery.

### Garden Cleanup

Blowers/Vacuums, Wheelbarrows and Shredders

### Ground Preparation

Cultivators & Tillers

From the first cut in Spring to the final tidy-up of Autumn, Webb Garden Power has every area of your garden covered.

POWER CHOICE

# POWERED YOUR WAY

## Every garden is different. That's why Webb offers a choice of power sources to suit the way you garden.

Whether you value the convenience of cordless technology, the continuous power of electric tools, the performance of petrol machinery or the simplicity of manual equipment, Webb provides solutions designed to match your garden, your lifestyle and the way you prefer to work With a wide range of products available across multiple power platforms, finding the right tool has never been easier.

## Choose the power that's right for you

From the convenience of cordless technology and the continuous power of electric tools to the performance of petrol machinery and the simplicity of manual equipment, Webb provides solutions designed to match your garden, your lifestyle and the way you prefer to work.

### MANUAL

Perfect for gardeners who appreciate simplicity, quiet operation and precise results. Manual garden machinery requires no fuel, batteries or electricity, making it easy to use, economical to maintain and ready whenever you are. With fewer moving parts and minimal maintenance, it offers a straightforward and environmentally friendly way to care for your garden.

**IDEAL FOR**

- √ Smaller gardens
- √ Precision lawn care
- √ Quiet operation

Webb

### ELECTRIC

Ideal for gardeners looking for dependable performance, straightforward operation and continuous power. Electric garden machinery delivers consistent mains-powered performance without the need to recharge batteries or refuel, making it a convenient and cost-effective choice for regular garden maintenance.

**IDEAL FOR**

- √ Small to medium gardens
- √ Consistent performance
- √ Everyday maintenance

Webb

### CORDLESS

For gardeners who value freedom, convenience and flexibility, Webb cordless garden machinery allows you to move easily around your garden without trailing cables or the need for petrol. Choose from 20V cordless power for lightweight performance across everyday tasks and smaller to medium-sized gardens, or step up to the 40V range for increased power and performance.

**IDEAL FOR**

- √ Freedom of movement
- √ Quick garden jobs
- √ Everyday convenience

Webb eco

### PETROL

Designed for larger gardens and more demanding tasks, Webb petrol machinery delivers the power, endurance and dependable performance needed to tackle tougher jobs with confidence. With the freedom to work without cables or charging stops, petrol power is ideal for longer working sessions and challenging conditions.

**IDEAL FOR**

- √ Medium to Large gardens
- √ Maximum power
- √ Longer working sessions

Regular servicing can help maintain performance and extend the life of your mower.

### ADAM RECOMMENDS

Latest tools Adam uses and trusts

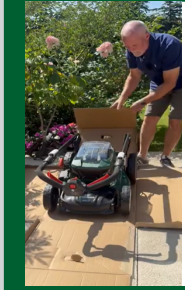

**40V Axial Blower**

★★★★★

With air speeds of up to 208km/h, four adjustable speed settings and a powerful turbo mode, it makes light work of fallen leaves and garden debris. Two 4Ah batteries and a charger are included.

**40V 47cm Cordless Lawnmower**

★★★★★

There was very little assembly required, so it was possible to get it ready for mowing quickly. The mower feels robust and well built, which is important for a machine designed to tackle larger lawns.

20V

# CORDLESS MACHINERY

## Everyday garden jobs made easier.

Keeping on top of regular garden maintenance shouldn't mean untangling extension leads, mixing fuel or struggling to start a machine. Webb's 20V cordless range gives you the freedom to simply insert the battery and get to work – ideal for those everyday jobs that keep your garden looking its best.

Lightweight, quiet and easy to use, the 20V range is designed for smaller to medium-sized gardens and regular maintenance tasks, from trimming lawn edges and shaping hedges to pruning, cutting and clearing. With no cables to restrict your movement and no petrol engine to maintain, you can move easily from one job to the next.

And with interchangeable 20V batteries across compatible Webb tools, you can use the same battery platform across multiple products. Start with the tools you need today and build your cordless garden collection as your needs grow.

### Why change to battery power?

**Cutting-Edge 20V Battery Power**
Experience the might of our 20V Lithium-ion technology, delivering power and performance on par with traditional petrol options.

**Eco-friendly**
Our 20V Lithium-ion battery delivers power without the hassle and harmful emissions, ensuring a cleaner, greener environment during use.

**Effortless Setup**
Simply snap in the battery, and you're ready to dive into your gardening tasks with ease.

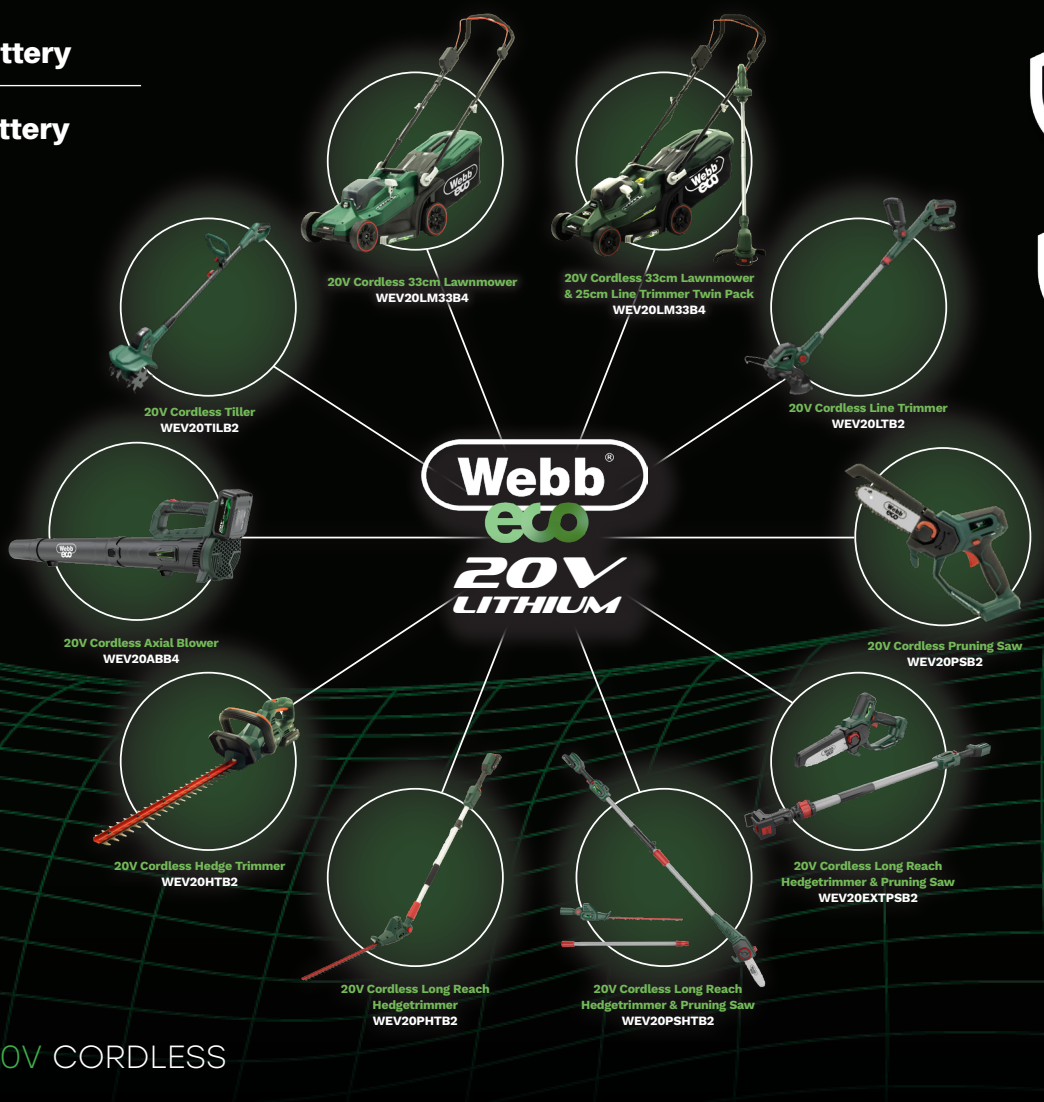

**Cost-Efficient**
Opting for lithium-ion batteries significantly reduces operational costs compared to using petrol.

## FROM TRUSTED Webb HERITAGE TO TODAY'S 40V CORDLESS FREEDOM

Webb has been trusted by British gardeners to deliver dependable machines that make light work of garden care. The Webb Eco 40V X-Series range builds on this heritage with the freedom of cordless technology, designed especially for medium to large gardens where performance really matters.

Powered by two Webb Eco 20V batteries working together, the X-Series delivers the strength of 40V across an entire family of tools. That means you can mow larger lawns, trim borders, clear leaves, cut hedges, tackle branches, and even revitalise your lawn - all with the same battery system.

Unlike petrol, the Webb Eco X-Series is quiet, clean, and easy to use. No pull cords, no fumes, no hassle. Just powerful, consistent performance backed by Webb's tradition of quality engineering. Whether you are maintaining a family lawn or managing a larger garden space, the Eco X-Series gives you the confidence to get the job done with less effort and more enjoyment.

This is Webb Garden Power, reimagined for today's gardens - efficient, versatile, and built to last.

40V LITHIUM 20V+ 20V X EXTRA POWER

**One Power Source. Endless Possibilities**

3 YEAR MACHINE WARRANTY

2 YEAR BATTERY & CHARGER WARRANTY

Webb eco X-SERIES

40V LITHIUM 20V + 20V

## For Medium & Large Gardens

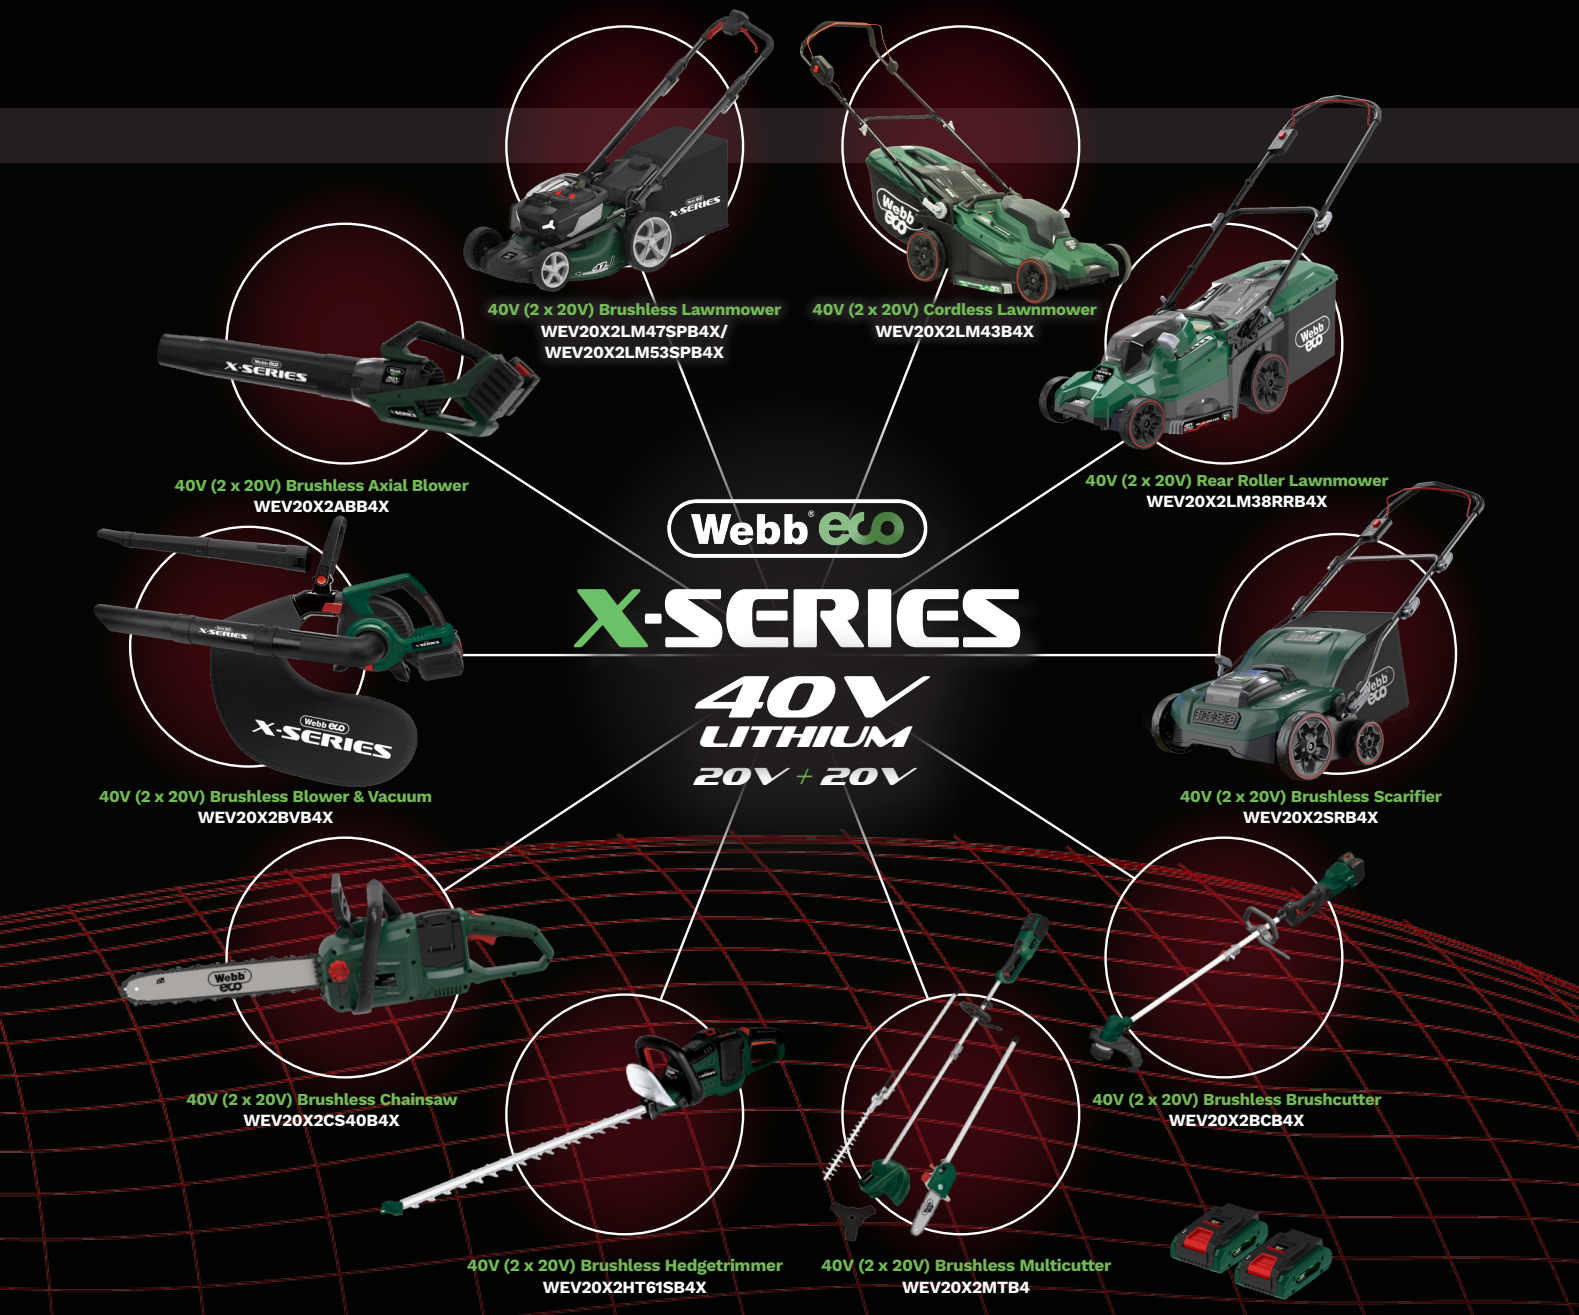

Enjoy longer runtime, greater performance, and effortless compatibility between all Webb Eco 20V and 40V products.

## Brushless Motor Technology

Brushless Motor Technology – Longer run times, higher efficiency, and more durability than brushed motors.

## All-in-One Garden Care

# CHOOSING THE RIGHT LAWMMOWER

## How to Pick the Perfect Mower for Your Garden

Choosing a new lawnmower can feel complicated, but finding the right one becomes much easier when you start with your garden and the way you want to mow it.

The size and shape of your lawn are a great place to begin. A compact garden may only need a lightweight, easy-to-manoeuvre mower, while a larger lawn could benefit from a wider cutting width, greater power and self-propelled drive to make mowing quicker and less demanding. Slopes, obstacles and access around the garden can also influence which mower will be easiest and most comfortable to use.

Next, think about the finish you want to achieve. A rotary mower is a versatile choice for everyday lawn care, while a rear roller or cylinder mower can help create that classic striped lawn appearance. Features such as adjustable cutting heights, grass collection capacity and mulching can also make a real difference to how you maintain your lawn.

Your preferred power source matters too. Choose from simple manual mowing, convenient mains electric, cable-free cordless or powerful petrol performance depending on your garden size, mowing habits and personal preference.

From small urban lawns to larger family gardens, Webb offers a wide choice of lawnmowers designed for different gardens, tasks and finishes.

Use our simple guide to compare your options and find the Webb lawnmower that's right for you.

# TYPES OF **LAWNMOWERS**

## **Petrol** Lawnmowers

Petrol lawnmowers deliver powerful, dependable performance for larger lawns and more demanding mowing conditions. With no cables to restrict your movement or batteries to recharge, you have the freedom and runtime to keep mowing until the job is done. Their robust construction and strong cutting performance make them ideal for tackling longer grass, uneven ground and tougher lawn conditions, giving you the confidence to take on bigger mowing jobs season after season.

SEE PAGE **47**

## **Electric** Lawnmowers

Electric lawnmowers provide reliable, continuous power for straightforward everyday mowing. Simply plug in and get started, with no batteries to recharge or fuel to manage. Lightweight, easy to use and economical to run, they're a practical and cost-effective choice for small to medium-sized lawns where a mains power supply is within easy reach.

SEE PAGE **63**

## **Cordless** Lawnmowers

Cordless lawnmowers offer freedom, convenience and low-maintenance mowing without trailing cables or the need for fuel. Lightweight, easy to start and powered by rechargeable batteries, they give you the flexibility to move freely around lawns, trees, borders and other obstacles. Simply charge the battery, click it into place and you're ready to mow.

SEE PAGE **10**

## **Manual** Lawnmowers

Manual lawnmowers are a simple, quiet and environmentally friendly choice for smaller lawns and gardens. With no fuel, batteries, cables or emissions to worry about, they're ready to use whenever you are and give you complete control over your mowing. Lightweight, compact and easy to store, they also require minimal maintenance.
