Passion for Durable Products

AVA of Norway is a premium pressure-washer and outdoor-cleaning brand developed with a clear Scandinavian philosophy: powerful performance, intelligent design and products built to make demanding cleaning jobs easier.

The AVA range has been designed around the needs of the user. Stable machine construction helps reduce the risk of the pressure washer tipping during operation, while long, flexible hoses provide greater freedom of movement. Practical onboard storage keeps accessories organised and close at hand, and ergonomic features such as the Zero-Force trigger gun help reduce strain during longer cleaning tasks.

Durability and serviceability are also central to the AVA approach. Metal pump construction, robust components and replaceable parts are designed to support a longer product life, giving customers greater confidence in their purchase. A wide selection of compatible nozzles, lances, patio cleaners, brushes and specialist accessories allows each machine to be adapted for numerous cleaning applications.

From washing cars, bicycles and garden furniture to tackling patios, decking, walls and driveways, AVA offers models for a wide range of domestic cleaning requirements. Its distinctive appearance and clearly defined product range help customers understand the benefits of trading up to a more capable pressure washer.
